General Information

SHIPPING

Most orders are sent UPS or FEDEX ground. Handling charge is 3.50 for the first box plus 1.00 for each additional box. Oversize shipments are sent common carrier freight collect.

TIME

Most stock orders are shipped within 24 hours. Restretch orders are shipped in approximately 10-15 working days or less. Please ask for current shipping time when ordering.

TERMS

All prices are wholesale to the trade only. Orders can be charged on VISA, Mastercard, Discover or American Express. Terms will be considered for firms rated by D&B. Prices subject to change without notice. All custom orders must be paid in full in advance. Written P.O. required on custom orders.

ORDERING

Call 1(718) 454-2255 and our knowledgeable sales staff will help you. No minimum order on stock frames.

You may fax orders to (718)454-7640. For more product information and current specials, visit us at: www.VictoryFactory.com
Email - mail@victoryfactory.com

INFORMATION

Screen Discounts

5% discount on 12 frames
7% discount on 24 frames
10% discount on 48 frames

Discounts do not apply to special/sale items
No Discount on Unstretched Frames

Orders must be shipped complete to qualify for discounts. Many chemicals including emulsions can not be shipped in freezing weather. Please plan ahead.

If you have any questions regarding our policy, please call (718)454-2255.

GUARANTEE

All products sold by Victory-Factory are guaranteed to be free of manufacturing defects. If you advise us of a defective product within 14 days of receiving a shipment, we will repair or replace that product at our discretion. We will not be responsible for defects not reported within 14 days.

Screen mesh is fragile and can be damaged by rough handling or accident, therefore, ripped mesh can only be replaced if found defective in manufacture.

Credit, repair or replacement can be issued only after the product is returned to us for evaluation. If a package is received damaged during shipping, please refuse delivery and call us immediately so we can help.

RESTRETCHING SERVICE

Recycle your frames. Save money by sending back your used wood or aluminum frames to us for professional restretching. **Frames must be sound and cleaned of all old mesh. Tape and ink from the stretching surface.**

Prices on the chart are for stock size/mesh combinations. Custom sizes and mesh are available.

For fastest service, print our handy restretch order form from www.victoryfactory.com and include the form with your shipment.

Handling charge on frames returned uncleaned is \$3. ea up to 31", \$5. ea up to 40" and \$7. ea over 40". We can not clean frames with wet ink and will reject them!

Tip for screens with wet plastisol ink: Remove as much ink as possible then run your screens through the curing dryer a couple of times. This will allow us to restretch them.

Ship to:
Victory Factory
184-10 Jamaica Ave
Hollis, NY 11423

These are heavy duty 32oz bottles with chemical resistant sprayers. Use for reclaimer, degreaser etc.

SPRAY \$2.99 ea

21 Step Screen Exposure Guide

- * Judge the exposure on any screen
 - * New slim design for easy placement
 - * Conforms to industry standards
 - * Simple to evaluate exposure
 - * Reusable
- \$6.95 each**

Directions:

Place the guide on your screen. Expose normally. After wash out, the guide should show solid though step 7. Steps 8-21 will be clear. This is ideal exposure.

Under exposure causes stencil breakdown. Over exposure causes loss of fine detail.

Use multiple guides on your screen to judge light evenness.

CAQUAWASHG
Gallon \$36.95

Plastisol Ink
 Glitter Ink
 Metallic Ink
 Fluorescents
 Process Colors
 Water Based

We carry Low-Bleed and High Opacity Plastisol Inks.

We recommend the use of **Reducer** to control the ink thickness. Also available is **extender** which can be added in any amount to create more transparent colors and softer hand. Our **Halftone Base** can be added to C-M-Y-K inks to adjust your process colors for printing. All inks are for professional use only. It is the printer's responsibility to use the appropriate inks, additives, techniques and curing methods. Always test ink and curing before proceeding! Please note that plastisol curing time and temperature will vary depending on the color and thickness of your ink laydown. All of the ink must reach the curing temp. This may require longer curing time for heavy deposits. Low bleed ink is recommended for polyester and cotton/ poly garments. Underbase may be required. Call for more information. 718-454-2255

Victory Factory Plastisol Textile Ink Kit
